## F/STOP

### 82 | LEICA V-LUX 5

To a large degree, the new V-Lux 5 resembles a single-lens reflex camera, though it is smaller and lighter. Compared to its predecessor, the V-Lux (Typ 114) it offers fine tuning par excellence. It is operated by means of a diversity of keys and dials

### 88 | LEICA Q2

A consistent continuation of the Q series, the new model is particularly appealing thanks to the grandiose resolution of its new 47-megapixel image sensor. Berlin photographer, Peer Kugler put the Q2 to the test

The new Leica V-Lux 5 has been optimised in some essential areas
